per 10 seconds per target
[Healing Debuff]: Reduces healing by 50% last for 8 seconds, cannot be stack or
dispel

Tierlist NP

Since Homura is heavy debuff, we can maximize her nasty debuff with Primeval
Flame and Sword of Rupture

Best: Primeval Flame/Sword of Rupture

Sub: Avalon

Niche: Luminosite Eternelle/Excalibur/Rho Aias

As mentioned Homura is heavy debuff, the best 2 NP are Flame or Rupture
Sub NP Avalon is used when no one is using Avalon on your team, Avalon provide
good buff to ally
Niche NP are mainly used when your best option are not available, there are mostly
niche use when your team required the specific NP buff like Excalibur or Rho

Soul Jades Per Role

Shapeless+Silence+Tenacity+Dodge

Silence+Tenacity+Dodge+Divine Body

Tenacity+Cure+Purification+Divine Body

For Homura Soul Jade, there are pretty standard, is either we build her as a full
tank/debuff/healer. Ideally speaking Homura won't act much as a healer role, she
will likely pair with another healer, thus building homura as tanky or debuff with
silence is highly recommended.

Cloth Tier List

Best: Gemini

Sub: Scorpio/Libra/Virgo

Niche: Taurus

Ideally speaking Gemini debuff best fit Homura, depending on what build you
running, Scorpio/Libra/Virgo can be a nice sub choice

Best Team

Homura's main role is a debuffer, thus pairing her with another Healer is essential. Homura role is mainly a Curse Debuff support, thus a unit that benefits from Curse usually goes well with Homura.

There won't be an exact team to use Homura, more of what unit you are pairing with.

Good Pair:

Homura+SJW

Homura+Mai

Homura+Lux

Homura+Rem

Homura+Saitama+Rem+Lux+DPS

These are just some units that synergize well with Homura
