Warrior Tierlist

Warrior Soul Jade Tier List
DPS/Half Tank
Shapeless, Strength, Swift & Tenacity is a common build use for a half tank warrior. You can swap in Penetration/Precision/Silence/Armor Breaker depending on your needs. As mention being a half tank the combo going to be Shapeless + Taurus(Gold Cloth) or if your running a Rage Debuffer would go with Gemini(Gold Cloth) + debuffing soul jade like Silence/Armor Breaker.

Full Tank
Tenacity, Swift, Dodge & Shapeless is a common full tank build for warrior. For Shapeless, you could change it to DMG Reflection/Shield/DMG Reduction depending on your need.

Silence & Armor Breaker are both good debuffing soul jade.

Shield & DMG Reflection are good only if your HP is highest, the higher the better outcome. DO NOTE on Shield can't be stack so only need 1 unit in team to use it.

Starting from Tier B to C, the soul are mainly your sub option, testing different build + soul, not really recommend for main lineup unless your cooking a new comp with it.
