Noble Phantasm

Noble Phantasm
There are 2 groups of Noble Phantasm:
1) Reformation Gear - Primeval Flame and Avalon
2) Reformation Time Wheel - All the other Noble Phantasm except for flame & avo.

Which NP to focus on getting?
Flame and Avo are basically an easy must get, as you progress through the game, do auctions for these while you have extra diamonds.

Depending on which DPS your running, most people would first focus on getting Rupture or Dual Rose Spear for their DPS, as for support focus on getting Excalibur and Rho.

Time Wheel priorities in using it:
1) DPS: Rule breaker/Dual Rose Spear/ Crimson Lotus - as your main DPS using it you need them at full prismatic which cost you 5 time wheels.
2) Rupture - Use 2 time wheel on rupture to get the minus 300 rage ability. If your using for your main DPS, get it to prismatic.
3) Excalibur - Get Excalibur up to prismatic when your done with the above 2 NP.
4) Upgrade those which you will be using either for sub dps or support.

Reformation Gear priority:
Unlike Time Wheel, Gear is considered easy to obtain.
1) Flame get it to prismatic
2) Avalon get it to prismatic
3) Get both to +5
