Bloodline

Bloodline
Technique Type
1) Ninja Technique - Mage/Ult/Normal/Technique

2)Physical Technique - Assassin/Ult/Normal/Technique

3) Illusion Technique - Bruiser(Tank)

4) Secret Technique - Support

Path System
Paths are unlockable with more copies of selected characters and needed crystals

Path 1. Free
Path 2. 1 copie and 10 crystals
Path 3. 2 copies and 15 crystals
Path 4. 3 copies and 25 crystals

Condition on level up path:
From path 2 to 3, you need 2 hero at path 2 to unlock path 3
From path 3 to 4, you need 3 hero at path 3 to unlock path 4

Core Factor
The Core factor should be refine into the same color depending on what kind of technique type you want for example:
> Characters like rimuru muzan will be all red in the middle

> Sjw lelouch will be all green in the middle

> Shadow Saitama will be all yellow in the middle

> Lux rem makise will be all blue in the middle

**Side note: You don't need to follow according to guideline for choosing Technique Type(Full Red - Mage/Green - Assassin/Yellow - Bruiser/Blue - Support), maybe you think SJW would work on Ninja Technique (Red Factor) instead of Physical Technique(Green Factor), you can copy the route setup of red factor and get ninja weapon that is related to Ninja

Technique(Red Factor).

The Main thing here is on what Ninja Weapon you want to use, your core relates to the choice of Ninja Weapon, go over the archive of Ninja Weapon choose the one that you think best fit, and adjust your Technique Style and Core according to your Ninja Weapon

This is just a starter guideline to how bloodline work, be creative and come up with something interesting, if you don't want to waste resources, you can truly just follow what other do. **

Middle core also can be level up to gain higher technique level, all ninja weapons at max 5 star need 150 of the designated type to unlock its full potential.
