Tierlist NP

Knowing Vergil Kit and his super high Ultimate Coefficient, NP that buffs ATK or has a direct impact on Ultimate boost Vergil DMG by a lot.

Best: Rule Breaker/Rose Dual Spears/Prelati's Spellbook

Sub Niche: Primeval Flame/Sword of Rupture

Rule Breaker: Boost Vergil ATK and Ultimate DMG, one of the most widely used NP for Vergil, straightforward and easy to use.

Rose Dual Spears: As mentioned in his Kit, [Dimension Slash: Extremity] considered to be basic attack, it can trigger Rose Dual Spears effect, upscaling Vergil DMG.

Prelati's Spellbook: The increased in ATK and Fix DMG best fit for Vergil, simple and direct, increasing Vergil overall DPS

Sub Niche NP are considered to be a weaker version, if possible pick the above 3 NP as top priority, if you have no other NP to use consider Primeval Flame or Sword of Rupture as ur Sub choice.

Soul Jades Per Role

Burst:

Shapeless+Strength+Dodge+Swift

Enrage+Strength+Dodge+Swift

The above build is considered the most easy and wide use for all Vergil, you may change out some Soul Jade for Penetration/Precision/Blade etc.. But this build is the most stable out of all.

Note: Only use Enrage if your running a Sagi Vergil, not really recommend for normal player, as this is a super high whale build who wishes to end the game quick with fast stack in [Demon Shadow] and Vergil AOE Burst everything; For most player please focus on Shapeless and Taurus Build.

Cloth Tier List

Best: Taurus/Sagittarius

PVP & PVE: Taurus best

Pure Whale PVP: Sagittarius

Best Team

Vergil Team are pretty straightforward we need heroes that can inflict [Entanglement] like Lux/Sebastian/Shadow

Best:

Shadow+Lux+Sebastian+Warrior+Support

Sub Duo DPS:

Shadow+Lux+Sebastian+Support+2nd DPS

Basically Sebastian helps in boosting Dodge% which is great for Vergil, Shadow and Lux both have [Entanglement] Debuff, helping Vergil to stack his [Demon Shadow] faster.
