## **Tierlist NP**

### **Only NP:**

Crimson Lotus Saintress: Makima have Fix DMG and Crit increase in her kit, as a mage she will have a high Crit%, thus Crimson is the only NP suitable for Makima.

### **Other NP?**

The reason why Makima performed badly on other NP is that, Makima kit and build required a very specific High Invest team, other NP are more of a niche option, won't maximize Makima Potentials...

## **Soul Jades Per Role**

### **DPS Crit**

Crit+Shapeless+Penetration+Precision

Crit+Shapeless+Strength+Blade

### **Niche Tank Crit:**

Crit+Tenacity+Shapeless+Penetration

Crit+Tenacity+Shapeless+Precision

Crit+Tenacity+Shapeless+Blade

Makima Soul Jade are not that flexible, due to her high DMG her Ultimate damage has a high coefficient which makes Soul Jade that have direct impact to flat damage (not Fix) are very beneficial.

A Niche Tank Build for Makima, increased her survivability, mainly used for sub dps setup with a High Crit Lotus for the debuff.

## **Cloth Tier List**

Best: Taurus/Cancer

Taurus for majority of the time Main/Sub DPS

Cancer for a High Crit competition

## **Best Team**

Building around Makima Kit, Stall Team are considered the best team for Makima

### **Classic Stall:**

Shadow+Saitama+Rem+Lux+Kurusu

### **New Stall:**

Asta+Saitama+Rem+Lux+Kurusu

### **Duo DPS (Not really recommend)**

Saitama+Vergil/SJW+Rem+Lux+Kurusu

For Classic Stall, in order to maximize the team synergy is a must to make Shadow the 2nd Highest Attacker on that team, as Makima will Possess onto Shadow and Shadow is being placed in front his Taunt and Makima [Enthrall] helps group the enemy better making Shadow to DPS with his [Shadow Blade] easily.

For New Stall, likewise in Classic Stall, is important to make Asta as the 2nd Highest Attacker, likewise on how Shadow act as same row, but the difference here is Asta jumping into backline of enemy team, Makima [Enthrall] and Ultimate damage will utmost guarantee to double the damage as they will likely be forced to move towards the middle more easily.

Key Unit here are Saitama, Rem, Lux & Kurisu

All 4 of them helps to ensure Makima survive as due to her high difficulty in releasing her 1500 Rage Ultimate, these 4 unit best in protecting Makima to survive longer
