

Summon & Companion Assembly

****Summon & Companion Assembly****

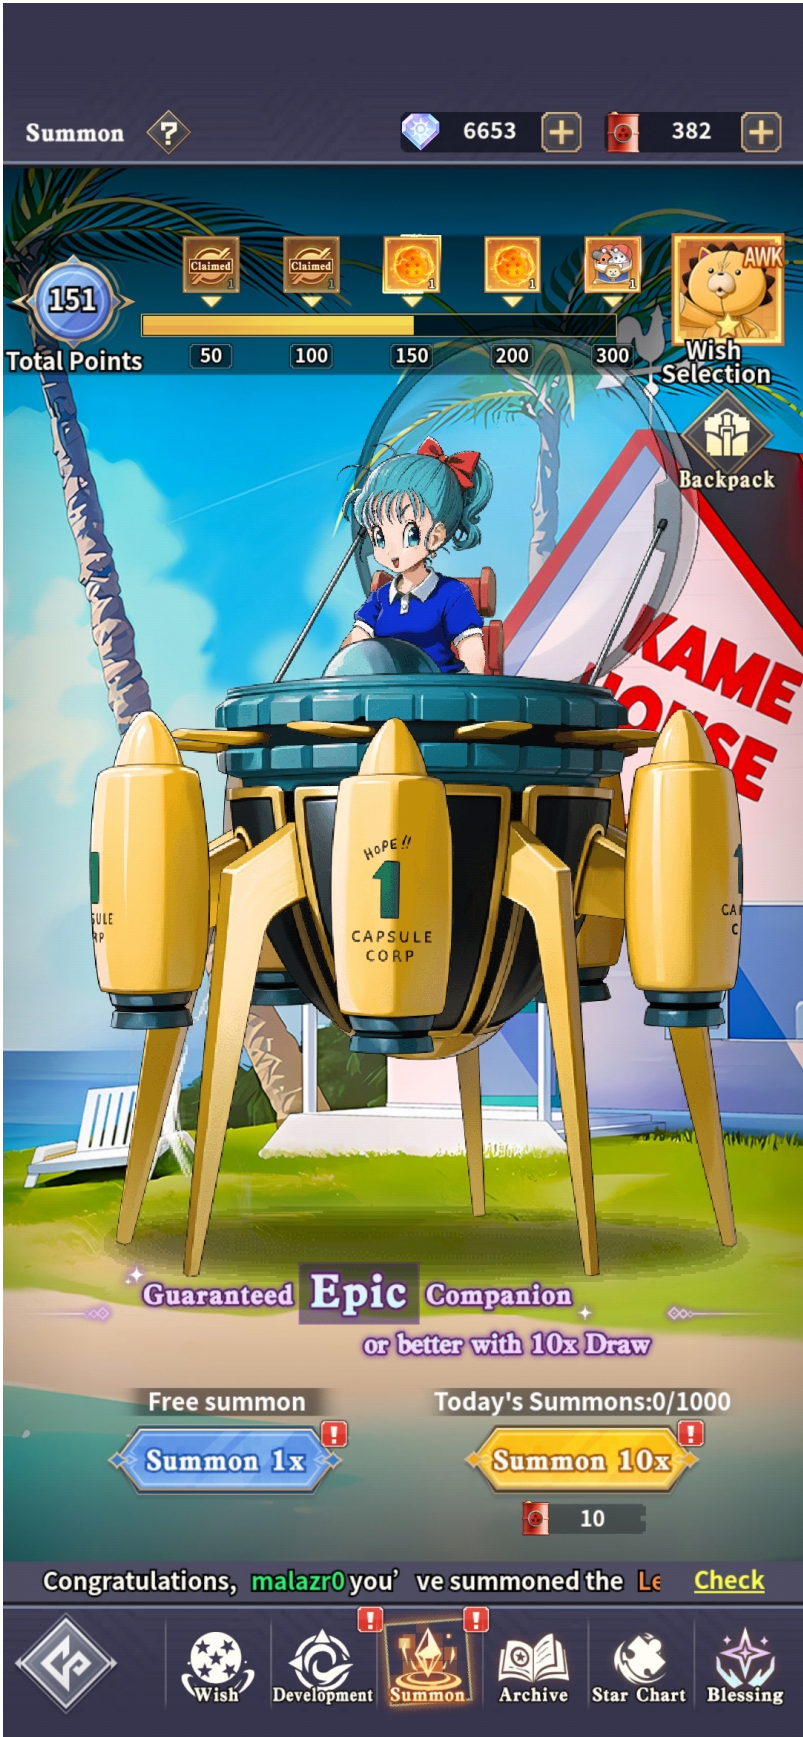

Companion Assembly will arrive when your server age Day 70.

The summon is simple you choose an awakened pet in the summon pool to increase its drop rate while you do summon. Do note you still can get another awakened pet while you perform a summon, just the one you choose has a higher % in getting it.

The Companion Summon is pretty much the same as Hero Assembly, is a monthly event which has 3 rounds each round and needs 500 summon to complete.

Do save your summon, making sure you can get 500 summon for 1 full round reward. The rewards are good to have for the long run.
