Set Out To Explore

Explore Wonderland

__Set Out to Explore__

This is the main core of the event and the primary way to farm Crystals.

In this mode you can see:
- The 2 cars you previously created (2 cars if you buy privilege)
- All cars created by other players

Each car is composed of:
- 1 Captain
- 4 Players

If you created two cars, a total of 8 players can participate (4 players per car).

Maximum Crystal Farming

Each player can farm with up to 4 cars simultaneously:
- 2 cars created by you !' guaranteed farming slots
- 2 cars joined from other players !' slots that can be lost

The two cars you create are safe, meaning your position cannot be taken.
However, the two cars you join from other players can be contested.

__Combat System__

This mode also includes a combat mechanic.

Players can attack others to take their position in cars that produce more Crystals.
However, they can also lose the battle and fail to take the spot.

__Combat Rules__

Battles for stealing a player's position depend on two factors:
1. Player Title
2. Team Power

__Title Priority Rule__

Combat follows this hierarchy:

No Title < 20% Title < 40% Title < 60% Title

If you attack a player who has a higher title than yours, the attack automatically fails.

Example:

- Player with 20% title attacking 40% title !’ automatic failure
- Player with no title attacking 20% title !’ automatic failure

__Team Power Rule__

If both players have the same title level, the outcome is determined by a normal team battle.

Examples:

- No Title vs No Title
- 20% Title vs 20% Title
- 40% Title vs 40% Title
- 60% Title vs 60% Title

__Battle Results__

If the attacker wins:

- The attacker steals the defender’s position in the car
- The attacker gains 30 minutes of protection (attack immunity)

If the attacker loses:

- The attacker does not take the position
- A 60-second cooldown is applied before attacking another player

__Car Duration__

Cars have a limited duration.
Once the time expires, the cars must be created again.
