

# Wish & Development

## **\*\*Wish\*\***

Wish is the main place where you will be getting pets, you can choose to summon blue dragon ball. But I recommend that you buy blue dragon ball and merge it into purple dragon ball to summon.

Obviously that orange dragon ball is exclusive and rare to get as there's a pity for you to get a legendary pet upon using certain amount of orange dragon ball.

## **\*\*Development\*\***

This is where you will level up your divine dragon for extra stats, the higher your stats the stronger your pet will be.
