Increasing 6 levels of [Wither] DMG coefficient

[Assistance Crit DMG] buff, when target is controlled, all ally increases Crit DMG
+3% up to 5 stack

When being deployed from assist, add [Entanglement] to all target for 3 seconds

Tierlist NP

Best: Maria the Ripper/Gae Bolg

Sub: Crimson Lotus Saintress

Niche: Primeval Flame

Best NP is Maria, as a single unit attacker, Maria helps enhance Sebastian DPS; Gae Bolg requires Crit to maximize its effect, building a Crit and Normal Attacker Sebastian, he can benefit from both Ultimate and Normal Attack.

Sub Crimson Build is only viable if you use Sebastian on field, more of a high Crit on field Sebastian fun build, not really recommended but is a fun option.

Soul Jades Per Role

Assist or on field:

Shapeless+Crit+Dodge+Strength

Shapeless+Crit+Strength+Penetration

Shapeless+Crit+Swift+Penetration

On field:

Enrage+Crit+Dodge+Strength

Enrage+Crit+Strength+Penetration

Enrage+Crit+Swift+Penetration

These are some general builds Sebastian uses, built according to your need, but Enrage is only viable if you're running an on field Sebastian, if in Assist suggest to run Shapeless more viable and efficient.

Cloth Tier List

Best: Taurus

Sub: Sagittarius/Cancer

Niche: Capricorn/Pisces

Taurus best overall for both on field and assist

Sagittarius use only if your Sebastian is on field from the beginning, as Sagi 30 seconds effect counts, when battle start meaning from Assist the timer already started by the time Sebastian is being deployed the 30 seconds golden period has ended

Cancer for a high Crit build for Crimson

Best Team

Since Sebastian is mainly used as an Assist unit, he pretty much goes well in the majority of DPS Mage and Assassin teams. However the Vergil team benefits the most with Dodge, increasing Vergil Dodge means increasing Vergil survivability.

Vergil:

Vergil+Saitama+Shadow+Rem+Lux

Stall Team:

Shadow+Saitama+Rem+Lux+DPS
