Tierlist NP

Best: Sword of Rupture/Rose Dual Spears/Prelati's Spellbook

Sub: Primeval Flame/Excalibur/Rho Aias

The best NP mostly used by Saber is Rupture, this is mainly people using Saber as Rage Debuff; Rose Dual Spears enhance Saber Normal Attack, fun and strong build; Book pretty much increases Saber ATK and Fix DMG, increasing Saber DPS.

Sub NP, mainly used for situations when you don't have a better NP to use for the moment.

Soul Jades Per Role

Shapeless+Swift+Tenacity+Silence

Shapeless+Swift+Strength+Silence

Shapeless+Swift+Strength+Penetration

Shapeless+Swift+Tenacity+Dodge

These are just some general build most Saber are running, other SJ like Armor Breaker, or tanky SJ can be consider, build according to your need

Cloth Tier List

Best: Gemini/Taurus

Niche: Scorpio/Libra

Best clothes are Gemini for rage debuff setup, and Taurus for DPS build
Niche clothes are not really recommended, as Sub cloth like Scorpio and Libra required high attack but Saber is a high ATK coefficient instead of HP

Best Team

Since Saber is an off-tank unit majority of the time, a team with Duo Warrior works the best, do take note Saber can go well in most teams depending on what team you're using.

Stall Team:

Shadow+Saitama+Rem+Lux+Kurusu

New Stall:

Asta+Saitama+Rem+Lux+Kurusu

Duo Warrior:

Saitama+Rem++Lux+DPS+Kurusu

These are some general setup saber can be good in, for stall team saber will act as 2nd DPS, Shadow will be ur main off-tank DMG dealer; New stall team, Asta main DPS, saber groups people in front row and act as 2nd DPS, synergy well with Asta.

Duo Warrior is more of a cheap version if you don't have both Shadow+Saitama combo or Asta, a fun niche setup that can CC and DMG at the same time.
