Tierlist NP

Kurusu NP choices are vast no specific order, use according to playstyle

Primeval Flame: Kurisu Ultimate is AOE DMG, with Flame is best for silencing enemy;
Good for Assist, as won't take up any of the important on field NP from start if Kurisu is on
Assist

Avalon: Healing and maximize Kurisu Shield buff in kit; Best only if Kurisu is on field from
the beginning not recommended for Assist

Luminosite Eternell: Increasing Kurisu survivability; Works for both on field and Assist, but
not really recommended use if all NP is occupy

Excalibur: Use only if Kurisu Max HP is high; Best only if Kurisu is on field from the
beginning not recommended for Assist

Sword of Rupture: Niche NP further increase Rage Reduction Debuff, works best with
Silence Soul Jade and Gemini Cloth Set; Works for both on field and Assist

Rho Aias: Block Rate and Debuff; Best only if Kurisu is on field from the beginning not
recommended for Assist

Soul Jades Per Role

Survivability:

Tenacity+Silence+Divine Body+Dodge

Tenacity+Shield+Guardian+Regeneration

Tenacity+Silence+Swift+Dodge

Pretty much most Soul Jade that keeps Kurisu alive staying longer on field works the best,
Silence is one of those Soul Jade messed up people's rotation is RNG but with 60% chance
there's a high chance 3 units get silence every Ult. Other Soul Jade are recommended to try
out, build according to your playstyle.

Cloth Tier List

Best: Scorpio/Libra

Healing: Virgo/Aquarius

Niche: Gemini

Best Team

Since Kurisu is an Assist/Support Unit she works in basically every team, depending on what playstyle you have for Kurisu, she can be on field or assist.

Assist Kurisu relies more on High Max HP, as if your team is solid and no allies dies Kurisu buff will help a lot if her HP is High; Whereas on field Kurisu relies on survivability.

Some stronger teams would be units which required Fix DMG like Madara/Rimuru/Asta.

Vergil Team: Kurisu/Sebastian?

Sebastian Dodge% helps Vergil more, but if you have Kurisu it also buffs Vergil DMG, there's no right or wrong to this, mainly depending on playstyle.
