

Spiritual Realm Adventure part2

Collections

Collections are one of the most important systems in the event.

Each collection contains **3 attributes**:

- **Level**
- **State**
- **Quality**

These determine the collection's overall value.

& p **Collection Level is the most important factor.**

Collection level is based on your **current Rank when the event triggers**.

Higher Rank = Higher Collection Value

Collection Acquisition

Some events allow players to obtain collections.

Players must spend **Spiritual Power** to negotiate, bargain, or gamble for the item.

Collection Selling

Some events automatically sell one random item from your collection inventory.

In return, players gain **Spiritual Power**, helping sustain progression.

Random Encounters

Random encounters require players to spend **Spiritual Power** to resolve situations.

& p Spiritual Power is consumed **only if the event succeeds**.

Different NPCs and encounter types behave differently, meaning players should make decisions carefully depending on the situation.

Spiritual Gear

Spiritual Gear unlocks automatically after reaching the required Rank.

There are **3 types of Spiritual Gear**:

- **Samsara Crystal**
- **Soulforge Stone**
- **Agency Pass**

Gear Rules

- **Samsara Crystal** and **Soulforge Stone** enter cooldown after use.
- **Agency Pass** has **no cooldown restriction**.

Cooldowns are based on **Cultivation Days**.

& p Each cultivation session counts as **1 day**, which determines cooldown progression.

Managing Spiritual Gear efficiently is important for maximizing event value.

Battlefield (League PvP)

Ø=ÝR **Available Time:**

19:00 !' 22:00 daily

This is the PvP portion of the event where leagues compete against each other.

Battlefield Structure

- Each group contains **12 leagues**.
- Leagues may only challenge opponents **within their own group**.

Challenge Attempts

Each player receives:

- ****5 free challenge attempts daily****

Additional challenge attempts can be increased through items.

& p Attempt counts reset at the end of every round.
